### **Oh! The Places They Go!**

*WonderWorks Orlando unveils new Dr. Seuss exhibit to kick off 2017*

**January 2, 2016 – Orlando, FL** – WonderWorks is known for their eclectic illusion art and unique exhibits, so its newest addition should come as no surprise. Theodor Seuss Geisel, better known as Dr. Seuss's wacky characters told meaningful stories inside the children's books he authored. WonderWorks indoor family attraction is now proudly displaying some of his most famous character artwork in, The Dr. Seuss Experience of Unorthodox Taxidermy.

This Dr. Seuss Experience allows guests to step into the strange world of some of the author's creatures and inspirations for his stories. Fans of the Seuss legacy will learn what sparked the innovators interest and get a closer look into his brilliant mind. Since the exhibit has opened in December, families have enjoyed re-living moments from their favorite childhood stories, and sharing them with their own children as well. Pieces in the gallery include the Sludge Tarpon, the Gimlet Fish, Flaming Herring, The Kangaroo Bird, Anthony Drexel Goldfarb, and The Turtle Necked Sea Turtle.

"This Unorthodox Taxidermy is a perfect addition to WonderWorks," says Director of Operations Brian Wayne. "We are known for our unusual architecture and educational exhibits that are meant to spark the creativity inside of our guests. Dr. Seuss's career was built on the same basis, that not everything is what meets the eye, and it is all worth learning about!"

WonderWorks offers over 100 interactive, hands-on exhibits and the team prides itself on offering something fun and educational for guests of all ages. All of the exhibits can be enjoyed at one affordable price for the entire family. The newly announced exhibit is just the start of even more exciting changes to come at WonderWorks Orlando in 2017.
