## **Black Hawk Helicopter Takes Siege at WonderWorks**

*WonderWorks Panama City Beach introduces new virtual army Black Hawk exhibit  
The simulator will be available to guests 13 and older*

**Panama City Beach, FL** (May 13, 2014) – WonderWorks Panama City Beach is launching a new exhibit that takes adventure to extreme heights in a virtual army helicopter simulator. The new Black Hawk helicopter gives guests at WonderWorks an opportunity to experience a taste of some heavy duty military machinery.

The Black Hawk helicopter was designed to perform a magnitude of missions, including evacuations, electronic warfare and a tactical transportation of troops. The war machine is equipped with sophisticated electronics and avionics for increased survivability and capability, such as GPS.

The Black Hawk simulator at WonderWorks Panama City Beach is a virtual army experience with 180 degree screens and surround-sound. Guests will be fully immersed in an intense battlefield, carrying out high-importance missions. Up to 2 people can sit inside of the full size machine and fly through challenges and obstacles.

“We’re extremely excited to open up the Black Hawk helicopter exhibit here at WonderWorks,” says Mike Walsingham, General Manager of WonderWorks. “I expect it to generate a lot of buzz because it isn’t every day that you get to take control of some serious military hardware.”

The Black Hawk helicopter will be available at WonderWorks, in their general exhibit area beginning Monday, May 19. Guests must be 13 or older to use the simulator.
